

The Villa Imperium winery was founded in 1920 in the Marche region, in San Savino di Ripatransone. Here the vineyards and water constantly draw their presence on the ancient skin of the fertile surrounding hills. A living monument to a man / nature harmony here achieved and perfected by need and intelligence. The same harmony that Giuseppe, grandson of the homonymous Cocci Grifoni founder of the company, and the wine-maker, Primo Narcisi pursue in the creation of their wines. 40 hectares of land planted with vines of a total of 100, conducted with a biological system as a testament to the commitment to respecting the ecological balance and the passion for natural products.

Organic farm

Grapes grown:

Montepulciano, Sangiovese, Merlot, Cabernet Sauvignon, Trebbiano, Passerina, Pecorino, Chardonnay

Company size:

100 ha of which 40 has vineyards

The winery, well represented and present in its area and in Italy, is relatively new on foreign markets. In consideration of the importance that the wines of the Marche have gained in the Italian wine scene, and of their ever-increasing palatability abroad, the winery is able to offer a wide and widely representative range of a good number of the main denominations, both DOCG, which DOC that IGT of the region. Certification by the Mediterranean Institute of Certification of Senigallia increases this appeal in large areas of foreign markets particularly sensitive to the theme of ecology. Villa Grifoni has also built a solid, lively and recognizable image of its products with a particularly refined packaging. A very favorable quality / image / price ratio makes these wines very interesting in any market, abroad and nationally.
